

THE GAZETTE.

THURSDAY, OCTOBER 3.

TO-DAY'S ANNIVERSARIES.

Born: George Bancroft, 1860.
Richard Boyle, 1860.
Died: Miles Standish, 1860.
Samuel Adams, 1863.
Elias Howe, 1867.
Treaty of Lancaster, 1891.

One thing is pretty certain already: The delegates to the Pan-American Conference will go home with the firm conviction that the United States is the most hospitable country on the face of the globe. —Philadelphia Inquirer.

Probably when they eat some of Uncle Sam's dinners they will come here to trade.

There is some press discussion on the question of making General Fairchild commissioner of pensions. That is all right. The general would make a good commissioner—just as good as any man in the country—and besides that the office should not go begging while there is so much good material for the office in Wisconsin. It is a compliment to the state that President Harrison has an eye on one of our popular ex-governors for so important an office.

The president did a good day's work on Tuesday. He made twenty republican postmasters, and among them was Dr. S. L. Lord, of Edgerton. The democratic postmaster, Mr. Dawe, had served twenty months over four years, and this, with other reasons, was counted sufficient ground on which to make a change. The republicans of Rock county will be especially pleased with the appointment of Dr. Lord. He deserves the office for more reasons than one. He is a really good citizen, competent to fill any office the people could bestow upon him, and for his past services to his country and to the county, he merits the recognition with which the administration has honored him.

It is hoped that the people of South Dakota have carried the prohibition proposition in their constitution. If they have, it will afford a practical test of the relative merits of constitutional prohibition and the license system in two new states lying side by side. There is one drawback in South Dakota regarding the prohibition question, and that is its enforcement may be difficult in such places as Sioux Falls. But if the people have a mind to enforce the law and the authorities are not afraid of the liquor influence, they will soon drive out the scoundrels. It will be a great honor to South Dakota if it shall begin its history as a state without the demoralizing influence of the liquor traffic.

The National civil-service reform league holds its annual meeting in Philadelphia to-day and to-morrow. The following papers will be read: "Should One Who has been President be Thereafter Eligible to Election to the Office?" by Dorman B. Eaton, of New York; "The Fourth-class Postoffice and the Postal Service," by Richard H. Dunn, of Boston; "Civil-service Reform as a Moral Question," by Charles J. Bonaparte, of Baltimore. To-morrow, George William Curtis will read a paper. The address by Mr. Curtis is a regular feature of these meetings, and those he gave during the administration of Mr. Cleveland were remarkable for the tolerant spirit in which they treated the continued violation of the principles of civil-service reform. —Sentinel.

The coming address of Mr. Curtis will illustrate his peculiar notions about Cleveland and Harrison as civil service reformers. All of Cleveland's blunders, no matter how glaring, were errors of the head and didn't count; now let us see if Mr. Curtis will be as tolerant toward President Harrison, who persistently refuses to violate the civil service law.

Minister Phelps had an exceptional honor paid to him when he presented his credentials to Emperor William. For the first time in the history of Germany her Emperor made a speech in English to a representative bringing credentials to him from an English speaking nation. It was a compliment to the United States and also a compliment to Minister Phelps. The Emperor and Chancellor had met Mr. Phelps when he was a member of the Samoan commission, and they then learned to look upon him as a statesman and diplomat of no inferior rank. —Inter-Ocean.

This special compliment to Mr. Phelps is well worth repeating, so is the progress made by the royal family of Germany in acquiring the English language. But there is another point in regard to William Walter Phelps which deserves repeating here. He is one of the brightest and ablest diplomats the United States ever sent abroad. He is known all over Europe, especially among crowned heads and in diplomatic circles. When he was representing the United States in Italy, he received a cablegram one morning that one of his large factories was burned to the ground. It employed hundreds of men and many of them—in fact a majority of them—were heads of families. It was a great loss to Mr. Phelps and his partners, but a severer loss to the families whose fathers and husbands were thrown out of employment. Mr. Phelps is a rich man. He inherited a good deal of money and he has made many thousands by his rare financial skill. He is a wise man, full of compassion and sympathy, and the cable dispatch made him see the situation in a moment regarding his workmen, and so then went under the seas back to New Jersey these memorable and cheering words—"Keep the men on the pay-roll until factory is rebuilt, and charge expense to me." The sentiment of that famous dispatch was all over Europe, and it was read by hundreds of thousands of workmen. It was the good act of a good man.

The Sentinel some time ago suggested that the managers of the Farmers' Institutes might render a valuable service by taking up the subject of improving the common country roads. They are now making up the programme for their winter meeting, and we again invite their

attention to the matter. They will find an excellent and timely article on the subject in the current number of Scribner's Magazine by Prof. Shaler, who fills the chair of geology at Harvard, which they will do well to study. —Milwaukee Sentinel.

The Gazette has frequently called the attention of farmers to the discussion going on both in the magazines, especially in the Century, in regard to the necessity for the improvement of the common roads. There is no question which more concerns farmers to-day than that of good roads; and there is no subject of equal importance that has been so neglected. The suggestion by Professor Shaler that agricultural colleges should teach the art of making good roads, may be all right but it would seem that a more practical way would be to discuss the subject in the farmers' conventions. The best thing to do is to get farmers to understand the importance of good roads—their value as a means of making markets more accessible and of appreciating the worth of farms; then it won't be long before the study of the kind of roads to be constructed will begin in a practical way.

As was said in the Gazette the other day, there is no estimating the annual loss to farmers and merchants on account of bad roads. It frequently happens that weeks and even months in one year are lost so far as hauling produce to market; and the old and practically worthless system of using the "poll-tax" has not been the means of making any permanent improvements in any of the roads of the state. Ohio is doing something in the way of giving people good and durable roads, so is Pennsylvania, but in the more western states, the farmers seem to be disinterested concerning the question. The Sentinel's timely suggestions in regard to the farmers' institutes and the road question, should produce good results. Wisconsin needs better roads, and needs them badly, and the first to move in the matter are those most deeply interested—the farmers.

DOWN INTO A SEWER.

Two Philadelphia Men Believed to Have Lost Their Lives.

PHILADELPHIA, Pa., Oct. 3.—Cohocksink sewer at Third and Thompson streets caved in again last night, and it was reported that two men were caught in the break and carried down through the sewer. At the time of the break there was a crowd of men and boys standing on a pile of brick at a crossing watching the workmen. Suddenly the ground under the pile of brick gave way, engulfing several thousand brick. The men and boys scrambled back to a place of safety. At the time of the cave-in, it is claimed by a large number of people standing around, two men were seen to fall into the hole and were swept down out of sight.

Grand Army Appointments.

DETROIT, Mich., Oct. 3.—Commander-in-Chief Alger of the Grand Army of the Republic has announced these appointments:

Executive committee of the national council of administration: H. D. Reade of Evanston, Ill.; Benjamin Starr of Richmond, Ind.; O. H. Coulter of Topeka, Kan.; Nelson Cole of St. Louis; T. S. Clark of Omaha; William S. Pillsbury of Derry Depot, N. H.; William McClelland of Pittsburgh.

The members of the pension committee have been appointed, and W. H. Saylor of Portland, Ore., has been appointed a member of the council of administration.

Strikers and Employers Make Terms.

ROTTERDAM, Oct. 3.—Another conference took place to-day between the shippers and representatives of the strikers. The shippers conceded some of the demands of the strikers, whereupon the representatives of the latter modified their other demands and promised to resume all the strikers to accept in this arrangement. It is expected work will be renewed to-morrow.

TEMPERANCE TIDINGS.

The Good Templars of Iceland are agitating for prohibition.

Southern young women show a fast deepening interest in W. C. T. U. work.

It is proposed to hold next year an international temperance congress at Christiania, Norway.

It is reported that in Louisville, Ky., it is impossible to keep the public wells because saloon men have them taken off or destroyed so as to force the thirsty public into their dives.

Speaking of the growing aggressions of the liquor traffic, a New York paper says: "The liquor men will probably soon put a 'drop a nickel in the slot and get a glass of beer' machine at every street corner."

The new tobacco law in Michigan takes effect Oct. 1. To call special attention to it the Michigan W. C. T. U. has earnestly requested all ministers of the State to preach Sept. 22 on "The Physical, Mental, and Moral Effects of Tobacco."

There is a good deal of talk about the formation of an organization for men, to be modeled closely after the W. C. T. U., and called the Men's Christian Temperance Union. There will probably be a conference on this fall on the subject, during the National W. C. T. U. convention.

A firm of book publishers, who also publish a temperance paper, find that in a book of etiquette issued by them were found containing the drinking of wine. They have ordered the suppression and destruction of all bound volumes and of all the sheets in stock, announcing that the work will be revised before any more are published.

The Mayor's Message.—May we be pardoned for requesting the Mayor to incorporate in his next message the fact that many of our most prominent citizens have been cured of rheumatism, neuralgia and kindred complaints by Salvation Oil, and to recommend this valuable medicine.

It must be good, for everybody recommends it. We mean Dr. Bull's Cough Syrup. Price 25 cents.

Milwaukee Exposition.

The Chicago, Milwaukee & St. Paul Railway Company will sell excursion tickets to Milwaukee and return every Tuesday, Thursday and Saturday, from August 31st to October 5th. Fare, \$2.39 round trip, including ticket to exposition good to return until the following Monday.

Never saw carpets sell better than they do at present. People find that they do not have to go away from home to see a stock and get prices. Are showing a large line. J. M. BOSTWICK & SONS.

Advice to Mothers. Mrs. Winslow's Sorelaid is a good remedy for children's teething. It soothes the child, softens the gums, allays all pain, cures colic and is a reliable remedy for diarrhoea. 25c a bottle.

MONTANA IS DIVIDED.

BOTH PARTIES ELECT SOME CANDIDATES.

The Governor Republican and Congressmen Probably Democratic—Both Claim the Legislature.

HELENA, Mont., Oct. 3.—Returns are coming in very slowly, and the figures are so close that the majority will not be much either way. The Democrats claim the State by 300 to 500 majority and the Republicans by 600 to 1,000. As a rule the Democratic legislative ticket is running ahead, and a majority in the legislature is claimed by both parties. Lewis and Clark counties the Democrats made large gains, but in some other sections the gains have not been up to their expectations. The Republicans lost in Republican counties, but made gains in the Democratic stronghold. Gov. Hauser and other prominent Democrats say they are sure of the success of their candidates for Governor and Congressmen, and that they will also have a majority of the Legislature. The chairman of the Republican committee says that the Republicans will control both branches of the Legislature and that Carter is elected to Congress.

LATER.—The Democrats concede the election of Carter to Congress. Toole (Dem.) is 300 ahead of Power (Rep.) for Governor, with four counties claimed by both parties, still to hear from. The Democrats have the Legislature by a small majority. The Republicans elect a majority of the minor State officers. The county elects four Democrats and five Republicans to the Legislature. The Independent claims the election of Toole (Dem.) by 300 to 400 and a majority of 9 on joint ballot in the Legislature. All figures on majorities are estimated, as the count is not yet completed in any county.

North Dakota.

FARGO, N. Dak., Oct. 3.—Returns sufficient to indicate the result have been received from twenty-six of the thirty-four legislative districts in the State. There are 30 Republican, 5 Democratic, and 1 Independent Republican Senators, and 42 Republican and 10 Democratic Representatives. A strong fight was made for judgeships, of which there were six to be disposed of at this election. The Democrats used the argument of non-partisan judiciary, and the result of that, coupled with some good nominations, is the election of half the district judges.

In Fargo Miller (Rep.) received 744 votes for Governor, against 630 cast for Roach (Dem.). The vote on Congressmen was about the same. McConnell (Dem.) is apparently elected district judge over Newman (Rep.). Twenty-eight precincts cast 88 votes against and 898 for the prohibition articles. The other three wards are strongly opposed to prohibition, and added perhaps 300 votes against it. The vote for the constitution is almost unanimous. Throughout the State the total vote was probably about 37,000. The Democrats elect Senators in the First, Second, Third, Twelfth, Sixteenth, Eighteenth, Nineteenth, Twentieth, Twenty-fifth, Twenty-seventh, and Twenty-eighth districts. The Republicans elect twenty, with the Twenty-third district in doubt. The Republicans also elect thirty-six members of the assembly. The Democrats elect eighteen, and there are five districts in doubt. Hansrough (Rep.) is elected to congress by about 12,000 majority.

The prohibitionists claim to have carried the Territory. Unprejudiced calculators believe the prohibitionists beaten by at least 6,000. The constitution has been endorsed by a rousing majority. At the Republican headquarters the victory State ticket is claimed from 10,000 to 12,000, while at Democratic headquarters Chairman Ryan asserts that from reports now at hand, official and otherwise, the Republicans will carry the State by not to exceed 5,000.

South Dakota.

PIERRE, S. D., Oct. 3.—South Dakota's first State election descended to a scramble for the location of the capital. There has been no fight on anything else. Mallette is elected Governor by over 20,000 majority. Pickler and Gifford go to Congress and the Republican majority in the Legislature will be at least 60, increasing the election of two Republican United States Senators. The vote was enormous, probably 80,000. Pierre, Huron, Watertown, Chamberlain, Sioux Falls and Mitchell were entered in the fight for the capital.

The reports received indicate a vote for Pierre of 26,000, Huron 21,000, Sioux Falls 11,000, Watertown 10,000, Mitchell 9,000, and Chamberlain 5,000. Neither Huron nor Sioux Falls has yet given up the fight and both still claim to have secured the capital. Owing to the great interest in the capital contest, but little attention was given to minority representation, and it was doubtless defeated. The fate of prohibition hangs in the balance.

Chairman C. F. McCoy of the Republican State Central committee estimates that prohibition is carried by from 10,000 to 15,000 majority; that Pierre has 25,000 votes for the temporary capital, with Huron a good second, and Mitchell third. Pierre will undoubtedly be the temporary capital.

LATER.—The returns now show the following result in the capital contest: Pierre, 13,924; Huron, 11,730; Sioux Falls, 11,100. The success of Pierre is generally conceded.

Washington.

SEATTLE, W. T., Oct. 3.—The Republicans claim that their ticket is elected by a majority of 10,000 to 15,000. The constitution is adopted by a majority of 20,000.

Returns from all over the State indicate that it is Republican by about the same majority as last year. The Legislature is certainly Republican, probably by twenty votes. The Republicans have gained in every county except two, which are in doubt. The returns here show two to one for Olympia as capital.

RUSSELL FOR GOVERNOR.

The Cambridge Mass. Nominated by the Massachusetts Democrats.

WORCESTER, Mass., Oct. 3.—The Democratic State Convention was called to order by Chairman P. A. Collins at 11:30 o'clock this morning. Mr. Collins was made temporary chairman and the usual committees were appointed. In accordance with the program, Nathan Matthews, Jr., of Boston, was made permanent chairman. On taking the chair Mr. Matthews addressed the convention at considerable length.

The platform says among other things: "We renew our demands for free materials and lower duties upon the necessities of life. We believe that free wool, as provided for in the bill passed by the Democratic majority of the last House of Representatives is essential to the prosperity of the woolen industry, upon which that of the wool-grower is dependent, while it will afford relief to all consumers of woolen goods. We give our hearty support to the petition of the present Republican Governor. Our State and leading iron and steel manufacturers of both political parties, addressed to the New England members of Congress, asking for free coal and iron ore and lower duties upon pig-iron."

The platform favors partial or entire reciprocity between the United States and Canada.

The following ticket was then nominated:

For Governor—WILLIAM E. RUSSELL of Cambridge.

For Lieutenant-Governor—JOHN W. CORCORAN of Clinton.

For Secretary of State—WILLIAM M. OSGOOD of Boston.

For Treasurer—GEN. E. B. MUNN of Holyoke.

For Auditor—D. T. TREFFERY of Marblehead.

For Attorney-General—ELISHA B. MAYNARD of Springfield.

EVA MITCHELL'S DEATH.

Alleged Confession of a Wayward Widow Who Is Probably a Myth.

CHICAGO, Oct. 3.—A new story is being told concerning the mystery of Eva Mitchell's death. The young girl's body was found on Grand boulevard the night of Nov. 17, 1888, and wounds on the corpse indicated that another murder had been committed. Several arrests were made, but no indictments were found. Many persons believed the girl had been accidentally run down by a reckless driver. The story now told is that a married man and a widow, both living in this city, people of social prominence, unintentionally caused the girl's death. A lison had existed for some time between the two, and they were in the habit of visiting a club house or the boulevard. The man drove one of his fastest horses the night of Eva Mitchell's death. On leaving the club house he surrendered the lines to his companion, and both being flushed with wine, the horse was driven at a reckless gait. Eva Mitchell, as the story runs, got in the way of the horse and buggy, and before the girl fully realized her danger or could step aside, she was killed. The sinful pleasure-seekers stopped the horse, but when they realized that the girl was fatally wounded they drove to the city. A few months ago the widow was seriously ill, and fearing that she might die, she confided the terrible secret of the murder to her daughter. Woman-like, the daughter told the secret to her sweet heart, through whom it was made public.

MANY RUINED IN GRAND HAVEN

Business Men Left Without Resources and 200 People Destitute.

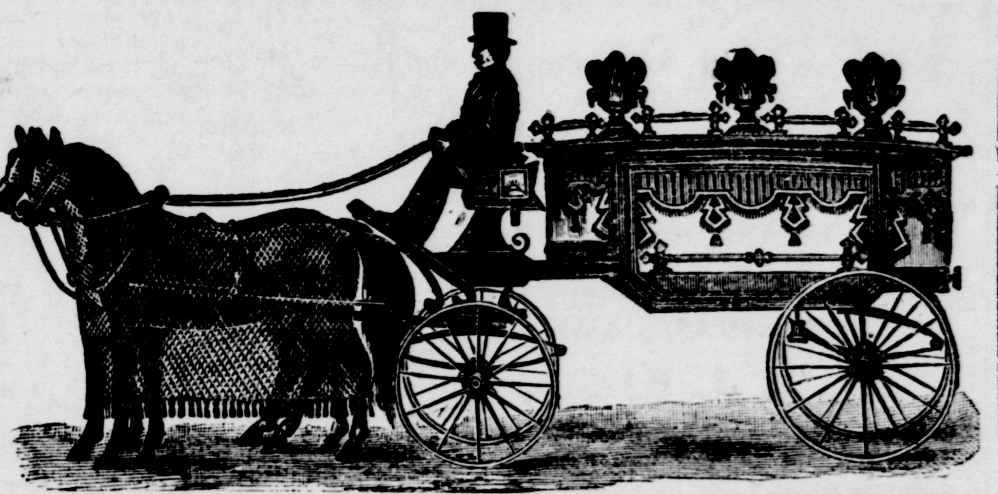

GRAND HAVEN, Mich., Oct. 3.—At a meeting of the relief committee last evening it developed that number of business men were practically left penniless by Tuesday's fire. Some had just lain in their fall stock, which has been swept away, and now the merchants find themselves after years of toil, in destitution. The Mayor said these citizens had requested that their names be kept from the public, but he was satisfied that not less than 300 people were now in absolute need, having lost everything. These will have to be assisted in some way. Telegrams from a number of cities were received to-day offering or sending aid to the distressed, among them being drafts for \$500 from Buffalo and \$1,000 from Kalamazoo. The entire liability of the insurance companies in consequence of the fire is said to be \$151,800, divided between thirty-four of the leading companies. The largest amount falls on the Home of New York, \$12,000. Quite a number of families have lost all their possessions, and have no insurance, but they object to publication of their names. In the distribution of funds the Mayor will use his best endeavor not to wound the feelings of persons who had never before experienced the necessity of charity.

"MRS. BENDER" ON THE RACK.

Lawyers Trying to Make Her Admit That She Is One of the Kansas Fiends.

NILES, Mich., Oct. 3.—In a criminal prosecution fruitless efforts were made to show that deceptress Mrs. Griffith was the notorious Mrs. Jeffer of Kansas. Mrs. S. Q. Davis, the old woman's daughter, was placed on trial for grand larceny. The examination was held in the court chamber before Justice Barron. From the questions asked by the prosecution one would think that Mrs. Griffith was in the dock for murder. She was closely questioned at to her past career, and she hoped that she would tell what she is supposed to know about the Benders. Mrs. Griffith protected herself in a bold manner, and said she would make hot for some people before she got through. Time and again she upbraided Attorney Hamilton, claiming that questions of too searching a nature were asked. The lawyers didn't have as much fun with the old woman as they expected, nor did they get the information which they sought. In fact, they were badly baffled. The case was continued until Oct. 16, when the daughter Eliza promised to tell all she knows.

THE AMERICAN CONGRESS.

FIRST SESSION OF THE INTER-

Secretary Blaine Elected Chairman—

Committees Appointed—Received

by the President—Gossip.

WASHINGTON, Oct. 3.—In the course

of Secretary Blaine's address welcoming the

delegates to the International American

Congress, he said:

"Your presence here is no ordinary event.

It signifies much to the people of all

America to-day. It may signify far more

in the days to come. It is a conference of

the people of the nations which they

blended to consider the

welfare of territorial

possessions so vast

and so important

to the possibilities of a future so great and

inspiring. The delegates whom I am ad-

ressing can do much to establish perma-

nent relations of confidence, respect and

friendship between the nations which they

represent. They can show to the world an

honorable and peaceful conference of

seventeen independent American powers

in which all shall meet together on terms

of absolute equality.

"Like situations beget like sympathies

and impose like duties. We meet in the

firm belief that the nations of America

ought to be united by the ties of brother-

hood, rather than by those of rivalry and

each will find advantage and profit from

an enlarged intercourse with the others.

We believe that we should be drawn to-

gether more closely by the highways of the

sea, and that at no distant day the

railway systems of the North and South

will meet upon the isthmus and connect by

land routes the political and commercial

capitals of America.

"We believe that hearty co-operation,

based on hearty confidence, will save all

American States from the burdens and

evils which have been cruelly visited upon

the older nations of the world. We believe

that friendship, avowed with candor and

maintained with good faith, will remove

from American States the necessity of

guarding boundaries lying between them-

selves with fortifications and military

force. We believe that standing armies,

beyond those which are needed for public

safety and the duty of internal adminis-

tration, should be unknown on both

American continents.

"To these subjects and those which are

cognate thereto the attention of this

conference and assembly is cordially in-

vested by the Government of the United

States. It will be a great gain when we

shall acquire that common confidence on

which all international friendship must

rest. It will be a greater gain when we

shall be able to draw the people of all

American nations into closer acquaintance

with each other—an end to be facilitated

more frequently and more rapidly by the

communication. It will be the greatest

gain when the personal and commercial

relations of the American States, South

and North, shall be so developed and so

regulated that the policy of internal ad-

ministration, should be unknown on both

American continents.

"At the conclusion of the address Sec-

retary Blaine retired. The congress then

elects the Hon. John B. Henderson,

president pro tem, a delegate represent-

ing the United States. The following

organization was then appointed and

directed to report on the

assembly of the congress in November:

Senor Romero, the Mexican minister,

Councilor Lauro de Ruyter, Pereira of

Brazil, Dr. Alberto N. de Figueira, the

Honorable Guzman of Nicaragua, and Dr.

Jose M. Hurtado of Colombia. The com-

mittee retired and in a few moments re-

turned with a recommendation, which was

immediately adopted, that Secretary

Blaine be named as president of the con-

gress.

Another committee was then appointed

to notify Secretary Blaine of his election.

Meanwhile resolutions were adopted pro-

viding for the appointment of committees

to frame parliamentary rules for the gov-

ernment of the congress and to divide the

work among sub-committees. These

committees will be appointed by the chair-

man. Further resolutions were adopted

providing that in the absence of the pre-

sident the chair will be occupied by one

of the delegates of each of the nations

represented in the congress by turn, selected
